## INTRODUCTION

The University of Ruhuna was established on 1<sup>st</sup> September 1978, as Ruhuna University College by a Special Presidential Decree. At the beginning there were only three Faculties; Faculty of Humanities and Social Sciences, Faculty of Agriculture and Faculty of Science. At present the University of Ruhuna has 10 faculties: Faculty of Agriculture, Faculty of Allied Health Sciences, Faculty of Engineering, Faculty of Fisheries and Marine Sciences & Technology, Faculty of Humanities and Social Sciences, Faculty of Graduate Studies, Faculty of Management and Finance, Faculty of Medicine, Faculty of Science and Faculty of Technology.

The central administration unit of the University is located at the Wellamadama University complex. The ten faculties are located at different locations: Faculties of Humanities and Social Sciences, Fisheries and Marine Sciences & Technology, Management and Finance, Science and Graduate Studies are located at the main University premises at Wellamadama, Matara while Faculties of Agriculture, Engineering, Technology, Allied Health Sciences and Medicine are located in Mapalana (Kamburupitiya), Hapugala (Galle), Kamburupitiya and Karapitiya (Galle), respectively.

The University offers Bachelor, Master and PhD degrees in their respective disciplines. In addition Diploma and Certificate courses are conducted in various disciplines.

Table 1 shows the student population of each Faculty in year 2021.

The tracer study of the graduates of the University of Ruhuna in 2022 was conducted in parallel with the 28<sup>th</sup> General Convocation of the University of Ruhuna which held in March, 2022. The aim of the study is to examine the employability of the graduates of the University of Ruhuna and to examine the student's satisfaction of the services offered by the University of Ruhuna. As such, the survey investigated the employability of the graduates of different programmes and faculties and student's satisfaction in teaching learning environment, various services, units and departments at the University of Ruhuna. It is expected that the results of this survey would be useful for academic and administrators both at policy and implementation levels.

## SCOPE AND THE METHODOLOGY OF THE SURVEY

The survey endeavored to examine the employability of the graduates at the 28<sup>th</sup> General Convocation held in the year 2022. After a series of discussions at the Quality Assurance Management Committee, a structured questionnaire was prepared. The questionnaire was administered via online to collect data. The graduates were requested to fill the questionnaire prior to the general convocation. All the instructions to complete the survey questionnaire were given in advance to the graduates. Of the total of 1610 graduates who were to be graduated in the General Convocation, 1570 graduates participated the survey, resulting in a 98 % response rate .

Table 2 shows the composition of the graduates from each Faculty and the number of respondents of the survey.

**Table 2: Response Rates for the Survey**

Faculty	No. of Awardees	Completed Questionnaires	Response Rate (%)
Agriculture	163	156	96%
Allied Health Sciences	75	73	97%
Engineering	226	220	97%
Fisheries and Marine Sciences & Technology	50	48	96%
Humanities and Social Sciences	467	456	98%

Management and Finance	301	296	98%
Science	80	79	99%
Technology	86	83	97%
Total	1610	1570	98%

Descriptive statistics were used in the analysis. General perspective of the graduate's employability is addressed at the beginning followed by a degree wise comparison.

## SECTION ONE: EMPLOYABILITY OF THE UNDERGRADUATES OF UNIVERSITY OF RUHUNA

The overall employability of the University of Ruhuna graduates at 28<sup>th</sup> General Convocation, is presented under five areas;

- Demographics of the Graduates
- English Language Proficiency and Computer Literacy
- Extra – Curricular Activities Involved
- Teaching Quality of the Program
- Employability of the Graduates

### 1.1. DEMOGRAPHICS OF THE GRADUATES

Gender, ethnicity, faculty studied, type of the degree obtained, medium of instructions of the degree, class obtained and residential area of the graduates are described in this section.

Table 3: Gender of the Graduates

Gender	No. of Graduates	Percentage
Male	592	37.7
Female	978	62.3
Total	1570	100

Figure 1: Gender Distribution of the Graduates

As shown in Table 3 and Figure 1, majority are female graduates and only 38% are males.

As given in Table 4, an overwhelming majority (95.6%) of the undergraduates are Sinhalese while Tamil and Muslim undergraduates accounted for nearly identical proportions (2%). There are two Burgher graduates as well.

**Table 4: Ethnicity of the Graduates**

<b>Ethnicity</b>	<b>No. of Graduates</b>	<b>Percentage</b>
Sinhala	1501	95.6
Tamil	34	2.2
Muslim	32	2.0
Burgher	2	0.1
Other	1	0.1
<b>Total</b>	<b>1570</b>	<b>100.0</b>

Table 5 shows the gender wise number of graduates from each Faculty. Majority of the graduates (29%) are from Faculty of Humanities and Social Sciences, followed by Faculty of Management and Finance with 19% graduates.

**Table 5: Gender wise Number of graduates from each Faculty**

<b>Faculty</b>	<b>No. of Graduates</b>			<b>Percentage</b>		
	<b>Male</b>	<b>Female</b>	<b>Total</b>	<b>Male</b>	<b>Female</b>	<b>Total</b>
Agriculture	55	101	156	9.3	10.3	9.9
Allied Health Sciences	27	46	73	4.6	4.7	4.6
Engineering	165	55	220	27.9	5.6	14.0

<b>Total</b>	<b>592</b>	<b>978</b>	<b>1570</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>

According to Table 6, 61% of the graduates have secured at least a second class lower division in their respective programmes while 29 % secured only a general pass.

**Table 6: Class Obtained of the Degree**

<b>Class</b>	<b>No. of Graduates</b>	<b>Percentage</b>
First Class	65	4.1
Second Upper	459	29.2
Second Lower	436	27.8
General Pass	610	28.9
Total	1570	100.0

According to the Table 7, 59% of the graduates were from either urban or semi urban areas. Fourty one percent were from rural areas. There were 7 foreign undergraduates as well.

**Table 7: Residence of the Graduates**

<b>Residence</b>	<b>No. of Graduates</b>	<b>Percentage</b>
Rural	639	40.7
Semi Urban	649	41.3
Urban	274	17.5

Other	1	0.1
Total	1570	100.0

## 1.2. ENGLISH LANGUAGE PROFICIENCY OF THE GRADUATES

Table 8 shows how the English language proficiency, as rated by the graduates themselves in three aspects: oral, written and reading. Seven percent of the graduates admitted that their English oral proficiency is either “weak” or “very weak”. Averagely 97% of the graduates claimed that their proficiency in reading and writing is either “very good” or “good”.

**Table 8: English Language Proficiency of the Graduates**

Proficiency Level	Oral	Written	Reading
	%	%	%
Very Weak	0.1	0.1	0.0
Weak	7.3	3.1	1.5
Good	78.7	73.9	62.9
Very Good	13.9	22.9	35.6
Total	100.0	100.0	100.0

## 1.3. COMPUTER LITERACY OF THE GRADUATES

Computer literacy of the graduates was checked under five aspects: Word, spread sheet and presentation, Database management system, Networking, Web designing and working with data analysis software.

**Table 9: Computer Literacy of the Graduates**

Type of Literacy	Word,SpreadSheet, Presentation	DBMS	Network	Web Designing	Working with Data Analysis Software
	%	%	%	%	%
No Capability	0.1	6.8	11.2	19.9	11.0
Poor	0.9	4.3	7.8	20.2	10.8

Employment position by the class of the degree is given in the Table 25. Majority of the first class degree holders were employed as lecturer or instructor.

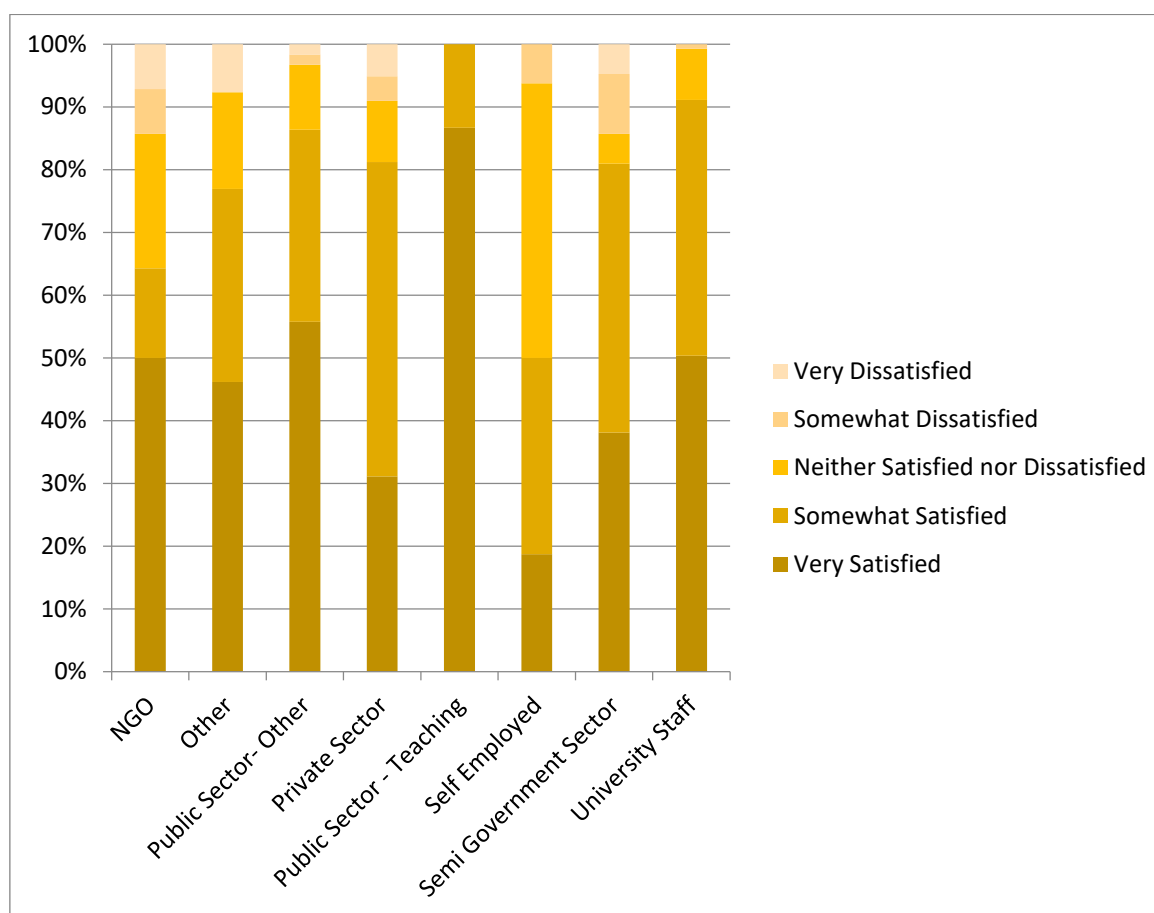

Figure 4: Satisfaction with the Sector Employed

Figure 4 shows the satisfaction about the employed sector. More than 50% of graduates who working as public sector-teachers are very satisfied with their employment. Around 30% of the graduates employed in private sector very satisfied about their work. Over 45% of the graduates ,who employed in the other sectors which not mentioned specifically also very satisfied with their employed sector.According to the Figure most of the graduates are satisfied about their employed sector at least to a some extent.

Figure 5: How Far the Job Relate to the Field of Study

Figure 5 shows to what extent to which the job relates to the field of study. More than 90% of the graduates working as university staff and public sector-other are agreed that their job is very related to the field of study. Most of the graduates agreed their current employed sector is related to their field of study into some extent.

## SECTION TWO: EMPLOYABILITY OF THE POSTGRADUATES OF UNIVERSITY OF RUHUNA

The Faculty of Graduate Studies of the University of Ruhuna offers many post graduate degree programs in diverse disciplines. Parallel to the undergraduates employability survey, a survey on postgraduates employment status and their perceptions was conducted at their Convocation. There were 121 post graduated degree awardees at the 28<sup>th</sup> General Convocation and only 86% of them had responded to the survey.

**Table 27: Response Rates for the Survey on Postgraduate's Employability**

Master Degree	88	76	86
PhD	12	10	83
Total	121	104	86

**Figure 6: Gender Distribution of Post Graduates**

Compared to undergraduate programmes, same gender distribution was seen among postgraduates. (Figure 6) 59% of the graduates are males and 41% are females.

Figure 7: Nature of the Degree

Majority (62%) of the graduates had followed their post graduate degree as part time while only 24% done the degree full time. Interestingly, as high as 99% of them had already been employed; mainly in public sector, followed by university staff (Table 27).

## 2.1 SATISFACTION ON PRESENT EMPLOYMENT

In this section, satisfaction on present employment of the postgraduates is given in detail. Satisfaction on general working environment, earnings and promotions, relationships with co-workers, use of knowledge and skills are explained with respect to the employed sector. Finally the overall satisfaction is focused.

## 2.2 IMPORTANCE OF GETTING A POST GRADUATE QUALIFICATION

The importance of getting a post graduate qualification as perceived by the graduates is given in the below Table 35. The perceived importance varied according to the employed sector. It showed that getting a post graduate qualification is very important (50%) to employed postgraduates to go to higher levels. Among the ones who are working, getting a post graduate qualification is not important for 10%. Generally post graduate qualification is important in to some extend for majority of the graduates.

**Table 36: Importance of getting a post graduate qualification to get a Promotion in the Current Employment (Sector wise)**

### 3.7 DEGREE WISE GRADUATES' PERFORMANCE

The percentage of first class holders were highest among BSc Agribusiness Management programme, followed by BSc Computer Science(Special) programme and the BSc Fisheries and Marine Sciences programme. General passes were highest among BA (General) graduates and BSc (General) graduates. There's no first class holders among external graduates; among them a vast majority had a general pass.
